

Internal AI Usage Policy Memo

Non-contract document. The model should classify this as Other and explain limitations.

Party	Details
Author	Ruby Operations Team
Audience	Employees and contractors
Date	12 June 2026
Document Type	Internal policy memo

Agreement Terms

1. Purpose

This memo describes internal expectations for using AI tools responsibly in business workflows.

2. Permitted Tools

Employees may use approved systems for summarisation, drafting, and research support.

3. Restricted Data

Users must not upload client confidential information, personal health information, trade secrets, or credentials into unapproved AI tools.

4. Review Process

AI-generated outputs must be reviewed before external use. The organisation does not treat AI outputs as final professional advice.

5. Reporting

Potential security incidents should be reported to the security team within one business day.

6. No Contract Formation

This memo does not create a contract, offer, acceptance, lease, employment agreement, service agreement, or NDA between any parties.
